### DETAILED ACTION

Claims 14-17, 19-23 and 40-69 are pending and have been examined.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 14-17, 19-22 and 40-69 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Various corrections are required as indicated below.

Claims 23, 68 and 69 recite the limitations "for each prolog node" and "for each epilog node". There is insufficient antecedent basis for these limitations in the claims as no prolog or epilog nodes are previously mentioned. Claims 19-22 are rejected as well for being dependent upon rejected claim 23.

Claims 23 and 69 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: a clear indication of the context of the *representative path* and *inner region*. Possible solutions include preamble amendment indicating a control flow graph.

Regarding claims 49, 50 and 67, the phrase "at least some" renders the claim indefinite because it is unclear as to the range of edges extending between outer and inner regions. Possible solutions include using "at least one" or "a plurality of edges...".

Regarding claims 14, 50, 67 and 68 the phrase "providing" renders the claim indefinite because it is unclear as to how "providing" is manipulated to produce a tangible result. Possible solutions include using the phrasing, "generating" or "storing".

***Conclusion***

This rejection is **not** made final.
